LET AN OFFICER INSPECT YOUR LOGS ON MOBILE

STEP 1 When a law enforcement officer requests to view your logs, open the GoodDealGPS App. For Android, tap the Menu icon.  For iOS, tap the Additional Features icon in the bottom menu 

STEP 2 In the main menu/additional features menu, tap "Inspect Logs". Android  **Inspect logs** iOS  **Inspect Logs**

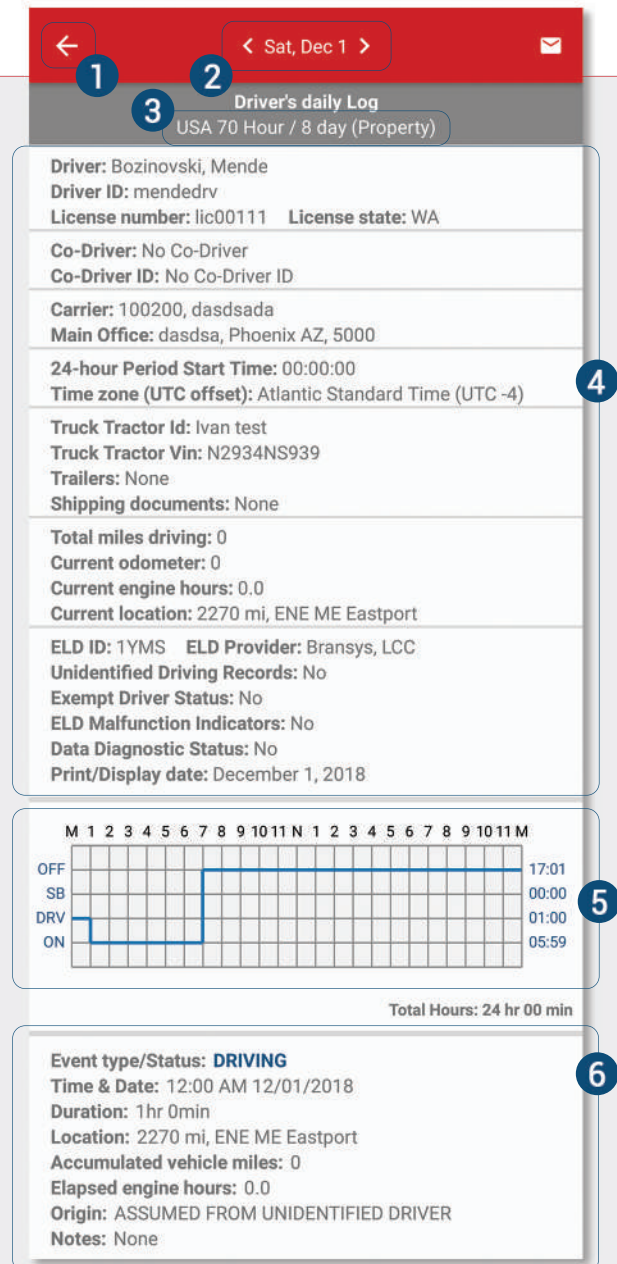

STEP 3 Then, tap the "Begin Inspection" button  and hand your phone or tablet to the inspector.

VIEW LOGS AND INSPECTION REPORTS

In Inspect Logs, you will have access to the logs and vehicle inspection reports for the most recent 8 days.

For each day, you will find a log chart that visually depicts the duration of the driver's activity over the 24 hour period and any vehicle inspection reports the driver created for that day.

- 1 Tap the arrow to exit the Report
- 2 For Android tap the arrow buttons to see the log from the previous or following day. For iOS swipe left/right to see the log from the previous/following day
- 3 Driver's HOS Cycle
- 4 Log Form details required by FMCSA
- 5 The log graph corresponds to the driver's duty status changes for the day
- 6 The details below the graph show the details of each duty status period, including Time, Location and Notes

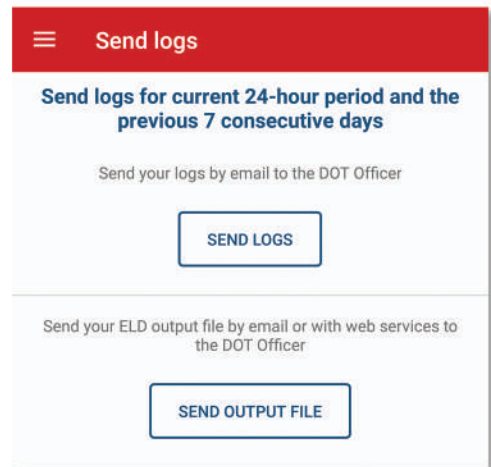

The screenshot displays the 'Driver's daily Log' interface. At the top, there is a navigation bar with a back arrow (1), a date selector (2) showing 'Sat, Dec 1', and a mail icon. Below the navigation bar is a header for the log, including the driver's name 'Bozinovski, Mende', driver ID 'mendedrv', license number 'lic00111', and license state 'WA'. The log also shows the carrier '100200, dasdsada', main office 'dasdsa, Phoenix AZ, 5000', and 24-hour period start time '00:00:00'. Below this is a grid representing the driver's duty status over a 24-hour period (3). The grid shows 'OFF' from 00:00 to 05:59, 'SB' from 06:00 to 11:59, and 'DRV' from 12:00 to 17:01. The total hours are 24 hr 00 min (4). Below the grid, there are details for the current driving event (5): Event type/Status: DRIVING, Time & Date: 12:00 AM 12/01/2018, Duration: 1hr 0min, Location: 2270 mi, ENE ME Eastport, Accumulated vehicle miles: 0, Elapsed engine hours: 0.0, Origin: ASSUMED FROM UNIDENTIFIED DRIVER, and Notes: None (6).

SEND LOGS ON ANDROID APP

Send Logs enables you to send Word documents via mail. On the *Main Menu*, tap *Send Logs*. You can choose to send logs:

1. By mail, or
2. Send the ELD output file for the last 8 logs to the DOT officer.

SEND LOGS ON iOS APP

From the Additional Features menu (third icon in the bottom menu) you can choose to send logs or send output files.

Send Logs enables you to send Word documents via mail. You can send each log separately or all together.

Send Output Files enables you to send logs:

1. By mail, or
2. With web services.
